Tools | Publishing: Docusaurus, GitHub, GitHub Pages, Markdown, HTML, CSS, oXygen XML Editor, Tridion Docs, VS Code, SharePoint, CMS & Static-Site Publishing

Analytics | Automation: SQL, Presto SQL, Tableau, Power BI, Power Query, Excel, AI-Assisted Development, Workflow Automation, Automated Quality Checks

Work Experience

Meta

Senior Documentation Engineer | *July 2023 – July 2026*

- Led end-to-end documentation operations for internal Recruiting platforms, supporting the full hiring lifecycle from candidate sourcing through onboarding.
- Partnered cross-functionally with Product, Engineering, Recruiting Operations, and HR to translate PRDs and product roadmaps into scalable user guidance across validation and release cycles.
- Established unified information architecture and content governance standards across recruiting documentation systems, improving long-term accuracy and user findability.
- Engineered internal documentation workflows and custom tooling using AI-assisted development, establishing human-in-the-loop quality validation protocols prior to deployment.

Documentation Engineering Manager | *March 2022 – June 2023*

- Established and led a 4-person Documentation Engineering team from the ground up, designing operational workflows and scalable migration processes that streamlined content delivery.
- Built an automated documentation analytics dashboard in Tableau and SharePoint to track team throughput and report KPIs to department leadership.
- Centralized product documentation into a unified knowledge hub by implementing migration tracking systems, standardized content discovery templates, and automated reporting workflows.

Jack Henry & Associates

Senior Manager of Technical Writing | *2021 – 2022*

- Managed a 16-person technical writing organization, including 15 writers and 1 direct-report manager, across multi-product release cycles.
- Directed content strategy, peer review, and publishing workflows for external API and SDK documentation to support developer integration.

Manager of Technical Writing | *2010 – 2021*

- Transformed an inherited technical writing team by auditing workflows, resetting performance standards, and modernizing operating models while remaining hands-on in content production.
- Scaled the organization to 14 technical writers over an 11-year tenure, leading full-cycle recruiting, structured onboarding, career mentoring, and performance management.
- Collaborated with Product, Engineering, QA, and Support to translate complex banking workflows and financial terminology into clear, user-friendly documentation.
- Automated department-wide documentation metrics using Power Query, eliminating manual publication counting and providing leadership with accurate visibility into team output.

Technical Writer / Technical Writer, Advanced | *2005 – 2010*

- Authored product documentation, release notes, and end-user guidance for enterprise core banking software applications.
- Championed DITA and XML structured-authoring standards while executing large-scale legacy content migrations to improve content reuse.

Vinyl Junction

Owner / E-Commerce Content and Operations Manager | *2014 – Present*

- Architect structured product content schemas, editorial style standards, and AI-assisted listing workflows (with human-in-the-loop quality review) across multiple collectible media categories.
- Design search-optimized metadata classifications, controlled vocabularies, and storefront taxonomies to maximize catalog discoverability for vintage media and rare editions.

Education

University of Arizona

Bachelor of Arts in Journalism, Minor in Communications
