Senior Documentation Engineer | Technical Writing & Documentation Operations

I bring more than 20 years of technical writing and documentation experience, including 13 years of direct people management. My work spans product documentation, content systems, documentation operations, information architecture, and technical team leadership.

Meta — Senior Documentation Engineer

July 2023–July 2026

- Led documentation operations for internal Recruiting platforms supporting the hiring lifecycle from sourcing through onboarding.
- Proactively monitored product roadmaps, outlined documentation from PRDs, and partnered with Product, Engineering, Recruiting Operations, and HR through validation and release to deliver scalable user guidance.
- Managed information architecture and maintenance practices across recruiting documentation systems.
- Designed documentation processes and practical tools, used AI-assisted development, and checked results before use.

Meta — Documentation Engineering Manager

March 2022–June 2023

- Built and managed a newly formed 4-person Documentation Engineering team while creating operating rhythms, reporting workflows, and scalable migration processes.
- Created a documentation metrics system using Tableau and SharePoint to show work output by Documentation Engineering team across the department.
- Helped centralize product documentation into a knowledge hub through migration tracking, content discovery templates, and reporting workflows.

Jack Henry & Associates — Senior Manager of Technical Writing

2021–2022

- Led a 16-person documentation organization of 15 writers plus 1 manager, including indirect reports through the manager.
- Managed writers producing API and SDK documentation and reviewed and edited their work across publishing and release workflows.

Jack Henry & Associates — Manager of Technical Writing

2010–2021

- Built and scaled a technical writing team of 14 employees, including hiring, onboarding, mentoring, and performance management.
- Inherited an established technical writing team, assessed people and processes, reset expectations and working models, and stayed involved in production while improving the operating model.
- Partnered with Product, Engineering, QA, Support, and documentation stakeholders to make complex banking workflows and terminology easier to understand.
- Established department-wide documentation reporting with Power Query and replaced manual publication counting.

Jack Henry & Associates — Technical Writer / Technical Writer, Advanced

2005–2010

- Created product documentation, release content, and customer guidance for core banking software.
- Advanced DITA and XML structured-authoring practices and contributed to large content-migration work.

Vinyl Junction — Owner / E-Commerce Content and Operations Manager

2014–Present

- Develop and maintain structured product content schemas, editorial standards, and AI-assisted listing workflows with human review across multiple media categories.
- Implement search-oriented titles, descriptions, metadata classification, and storefront taxonomy to support discoverability across vintage media and collectible editions.

Education

University of Arizona Bachelor of Arts in Journalism, Minor in Communications
